MEET the next evolution of events in Las Vegas

New Las Vegas venue will redefine the meeting and events industry's expectations

LAS VEGAS –MEET Las Vegas, a revolutionary new exhibition and event space is opening this March in Downtown Las Vegas.

MEET offers innovative interior and exterior technologies and a rigging infrastructure unequaled in the event and exhibition industry.

“MEET is a meeting planner’s dream!” explained Dan Maddux, CEO of MEET Las Vegas. “We designed MEET to have virtually unlimited flexibility to cater to unlimited wants, needs, and desires.”

The 30,000 square foot three-story venue and outdoor pavilion offers capacities up to 2,000 people. MEET’s first two floors are a blank canvas, providing expedient move-in and tear downs because the rigging and technology infrastructure are fixed elements. With color changing exterior and interior lighting to boot, MEET Las Vegas provides “Customized Branding Galore”. The third floor is an executive concierge lounge, state-of-the-art multi-media training center for corporate training and VIP events.

MEET Las Vegas is located on the corner of 4th Street and Bridger Avenue, just a few short blocks from the Golden Nugget and the Fremont Street Experience.

MEET Las Vegas will hold its grand opening on March 16th. For more information about MEET Las Vegas, visit www.meetlv.com. Call (702) 734-MEET, or e-mail mcoindreau@meetlv.com to schedule a tour or reserve your space for the grand opening.
